Virginia

\*Florida license – attained in 1986

### **TEACHING AND OTHER CLINICAL WORK**

- Part-time faculty at the University of Kentucky College of Dentistry  
Half-day/week: Department of Endodontics (1990-1993)
- Dental Consultant – Federal Correctional Institute, Lexington (1987)
- Part-time Instructor – Lexington Community College – Dental Hygiene Program

## **PRIVATE PRACTICE**

My practice is a two dentist general practice encompassing all aspects of dentistry. Although we treat children two years of age and older, we have primarily an adult practice. Our two dental hygienists maintain a strong periodontal program. My partner, who used to teach prosthodontics, has a special interest in fixed and removable prosthodontics, while I am growing in the direction of a crown and bridge and cosmetic practice. Our office takes advantage of modern (high-tech) dental equipment such as intraoral cameras, digital radiography, interactive patient educational software and office management software.

## **PROFESSIONAL AFFILIATIONS**

- Member of the American Dental Association and it's component, the Bluegrass Dental Society.  
Executive Board Member (1991-1995)  
Chairman (1993)  
President (1996)
- Implant Study Club Member
- Chamber of Commerce Member
- Small Business committee Member
- Medical Staff – Bluegrass Community Hospital
- Woodford County Medical Society Member

## **LECTURING STATUS**

Former Senior Lecturer with the Dr. Woody Oakes Lecture Series. I conducted 'high-tech' seminars across the country for approximately 5 years.

I have given lectures internationally on intra-oral technology, digital radiography and other related technologies. I have also presented seminars on educational interactive software for the dental office, and have contributed to numerous articles on these topics for national publications.

Through my relationship with the various dental companies, I have learned the nuance of presenting an educational seminar while at the same time working with the technical representative to motivate and initiate sales.

## **PERSONAL BACKGROUND**

Birthdate – June 2, 1957  
Place of Birth – Pullman, Washington  
International Background – have lived in Europe, Asia and Africa  
Wife – Cheryl  
Children – Olivia, 16 and Andrew, 12
